HUNTER PUBLISHING COMPANY,
WINSTON-SALEM, NORTH CAROLINA

When Homer C. Pike, Jr. came to Wayne Community College in August of 1971, he could not have imagined what the future held in store for him.

A graduate of Rollins College in Florida, obtaining a B.A. in political science Mr. Pike joined the staff of WCC with the unenviable task of counselor to the rowdy bunch in college transfer. As if this were not enough, during the close of the 1972-73 school year he took on the additional responsibility of advisor to the Student Government Association.

During this time Mr. Pike has shown dedication to the job, devotion to the college, a tremendous amount of leadership and good will, and, above all, a genuine concern for the welfare of the students.

Mr. Pike has become a familiar face to the members of the student body. It is no surprise to see him act as chef at a Student Association cook-out, and then assume the role of janitor when the event has ended. The long and tedious hours he has devoted, and the almost ceaseless energy he has displayed in regard to student affairs have made him a favorite of students in every department.

Complementing and supporting Mr. Pike are his wife, Carmen a secretary in the Registrar's office, and his daughter Melissa.

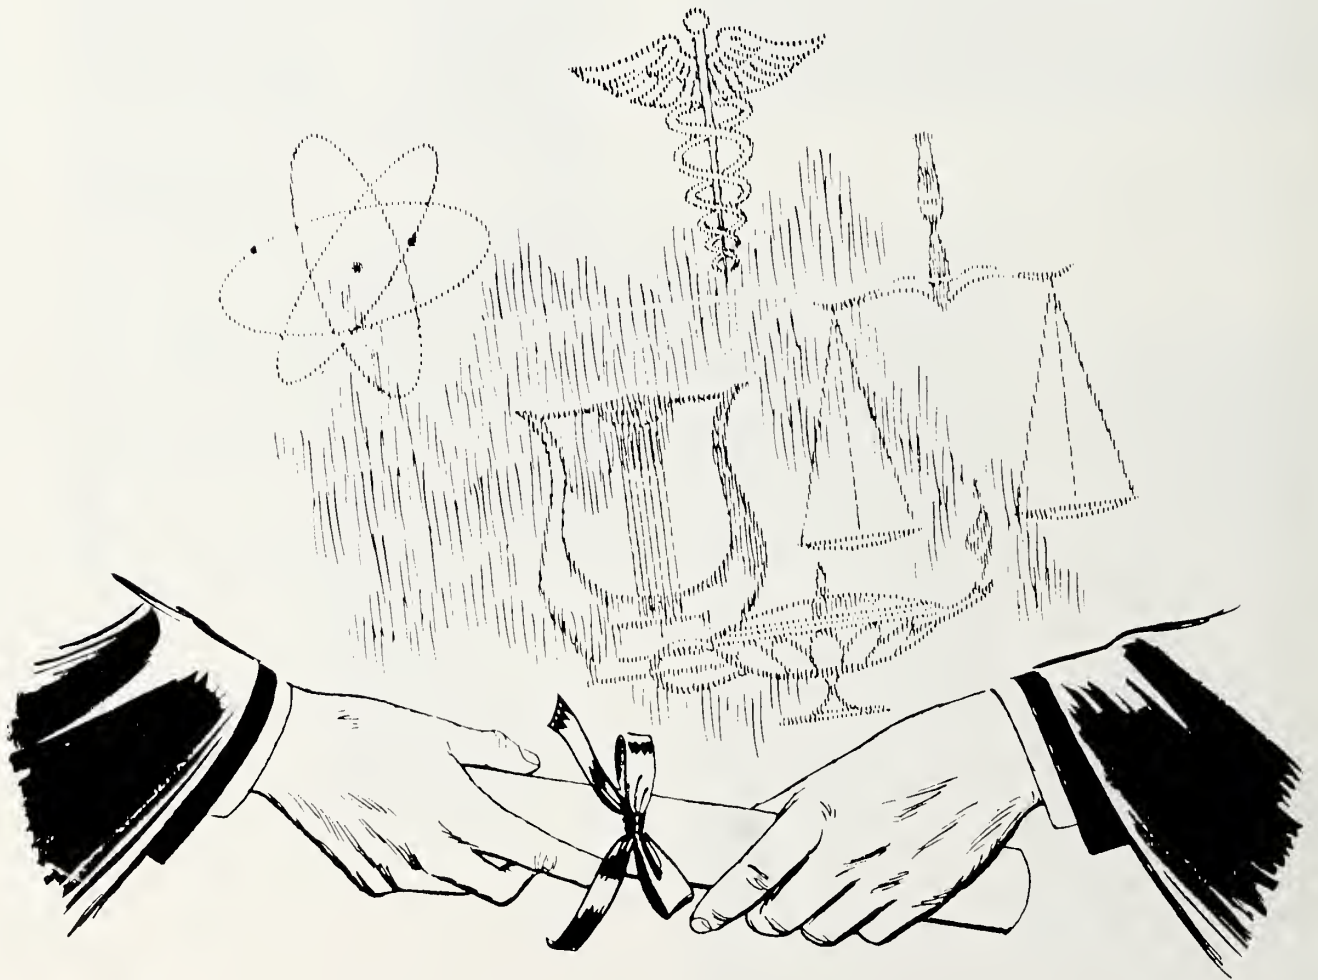

In recognition of his many achievements, the yearbook staff gratefully dedicates the 1974 INSIGHT to Mr. Homer C. Pike, Jr.

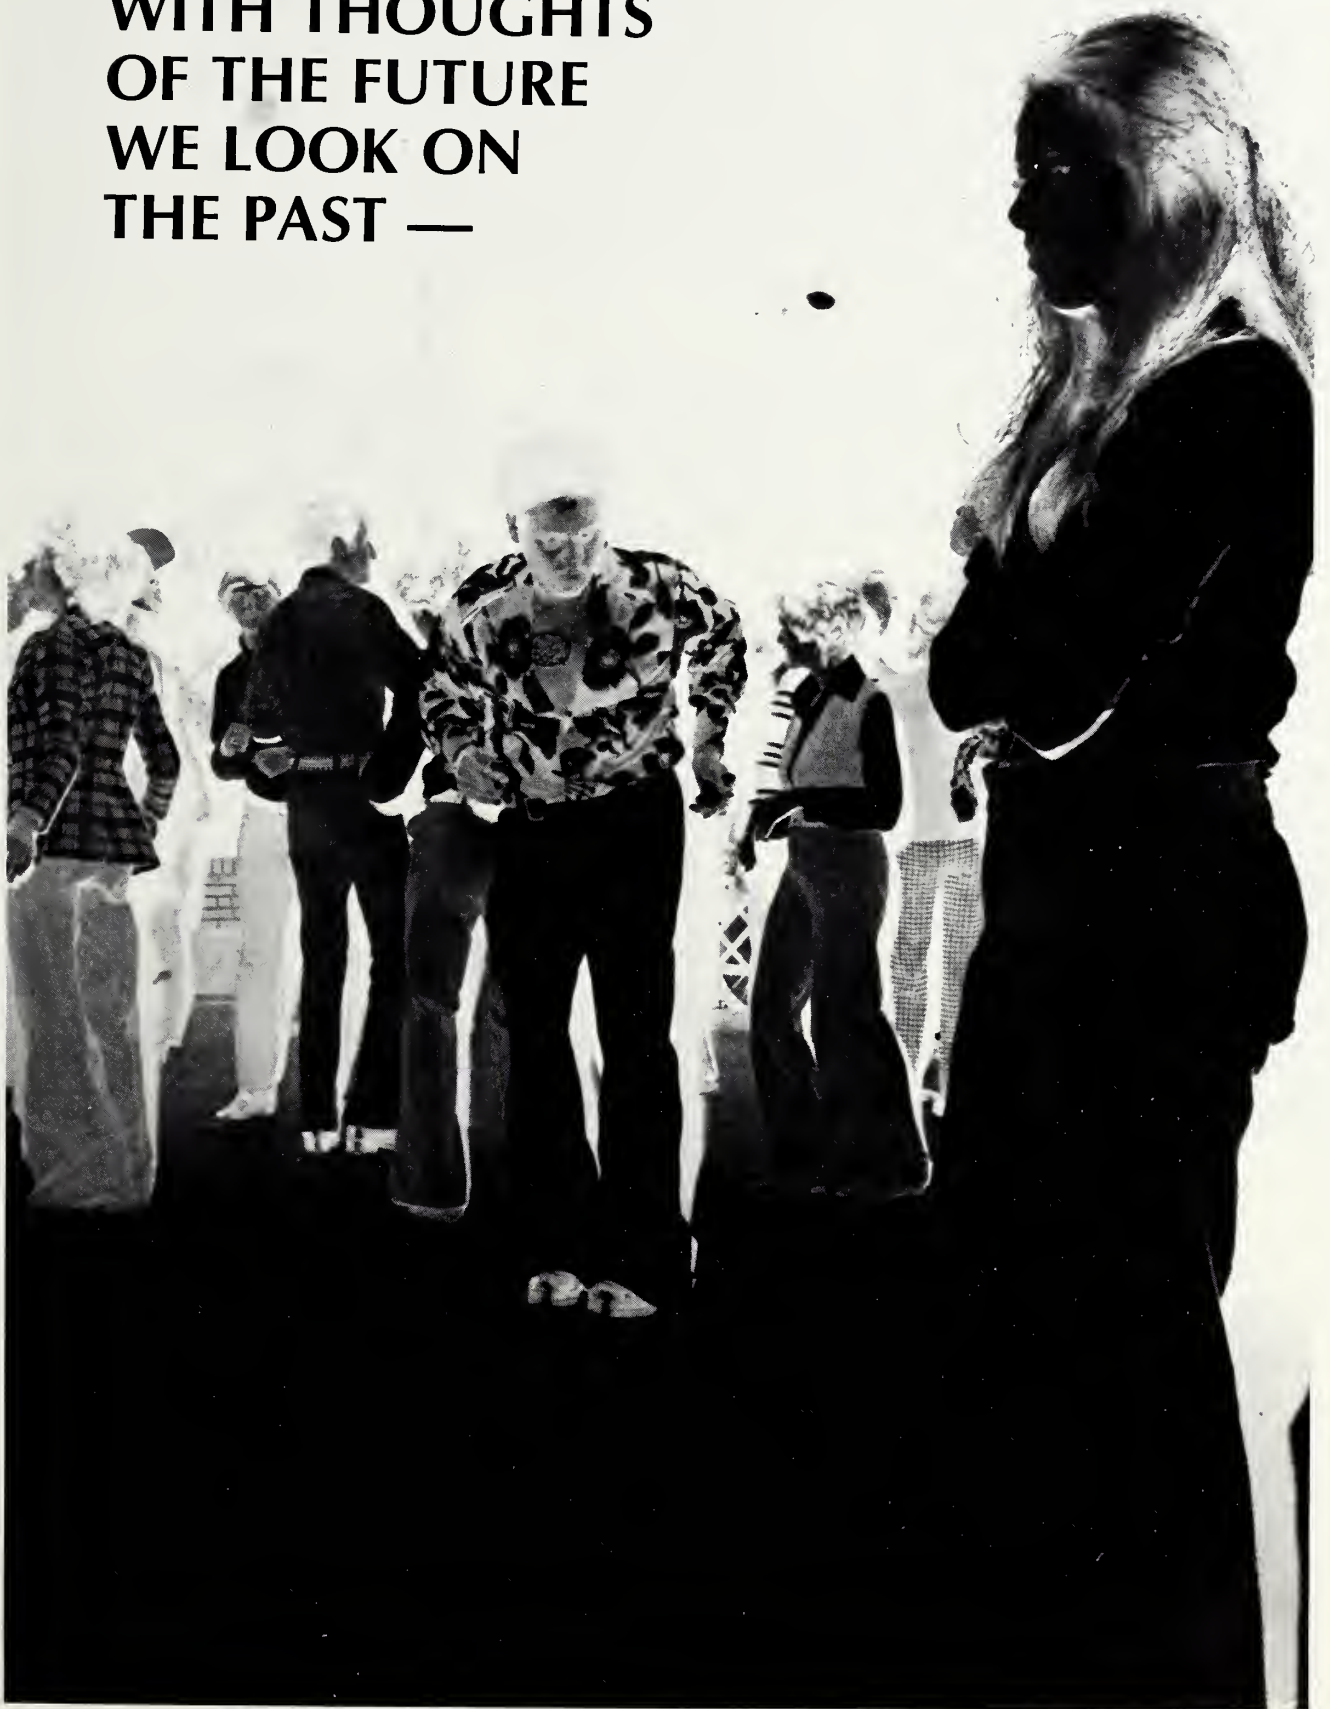

DEDICATION

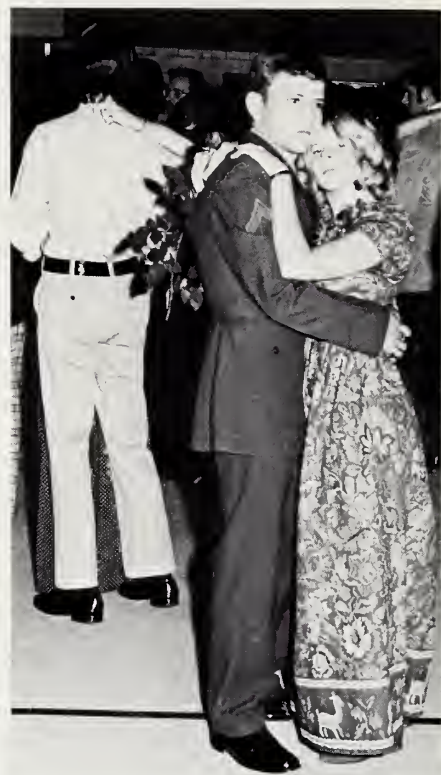

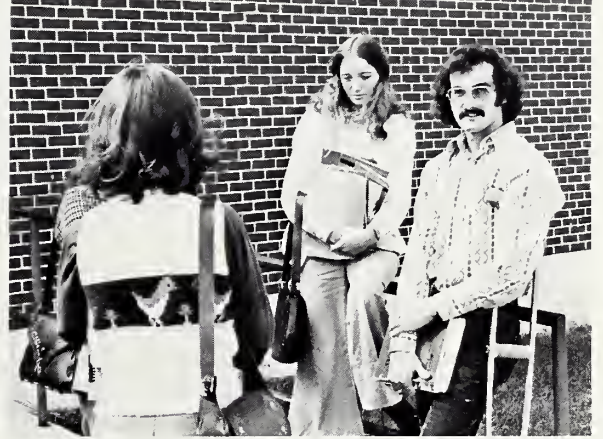

**LET EACH
BECOME ALL
HE IS CAPABLE
OF BEING . . .**

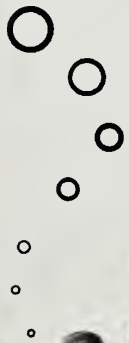

**WITH THOUGHTS
OF THE FUTURE
WE LOOK ON
THE PAST —**

THE **CASTAWAYS** LTD

Joey Starlighter and the Jets

Sam Gilroy

Chug it, Baby!

I've got your number.

Time out for a little rest and relaxation.

Mike always enjoys getting his picture taken.

Suzanne soaks in the sun while waiting for her next student.

Registration Day — what a way to welcome newcomers

Students wait in line, only to find out that their classes have been closed.

“What ya mean I didn’t graduate from high school?”

Is this the line for the bathroom?

Maa confusion reigns again.

Orientation Dance — the real welcome

Let's Boogie!

Everyone seemed to enjoy themselves at the Orientation Dance.

Who did you say he was dating?

Time out for a pepsi.

Taking a break from the music.

Its party time at the dance and Cindy and Peggy seem to be enjoying it.

Dancing is tough on the feet.

It doesn't really matter what you do as long as you move.

Is this a concert or a dance?

And Kallabash played on and on and on . . .

Student Government sponsors dance — picnic combination

Lose your partner Coach?

Let's get it on.

I am gonna get ya.

Splendor in the grass.

Students Make use of Student Union Facilities

Foosball is a necessity of Life.

I wonder who has the old Maid?

Dale aims for the corner pocket.

Sue takes a break from her daily duties.

Students Reveal Their True Identities

Boze was the center of attention.

My! What a long tail.

Clowning in the corner.

Wayne's students are always leaders in fashion.

Halloween Costume Dance

Stan learns karate the easy way.

Dance to the music.

Allamance County provided music at the halloween dance.

SGA Sponsors Mellon During Summer

Hands off my melon.

Pucker Power!

On her way to the finish line.

Mmmm Good!

Fest For Students Session

More Water Mellon?

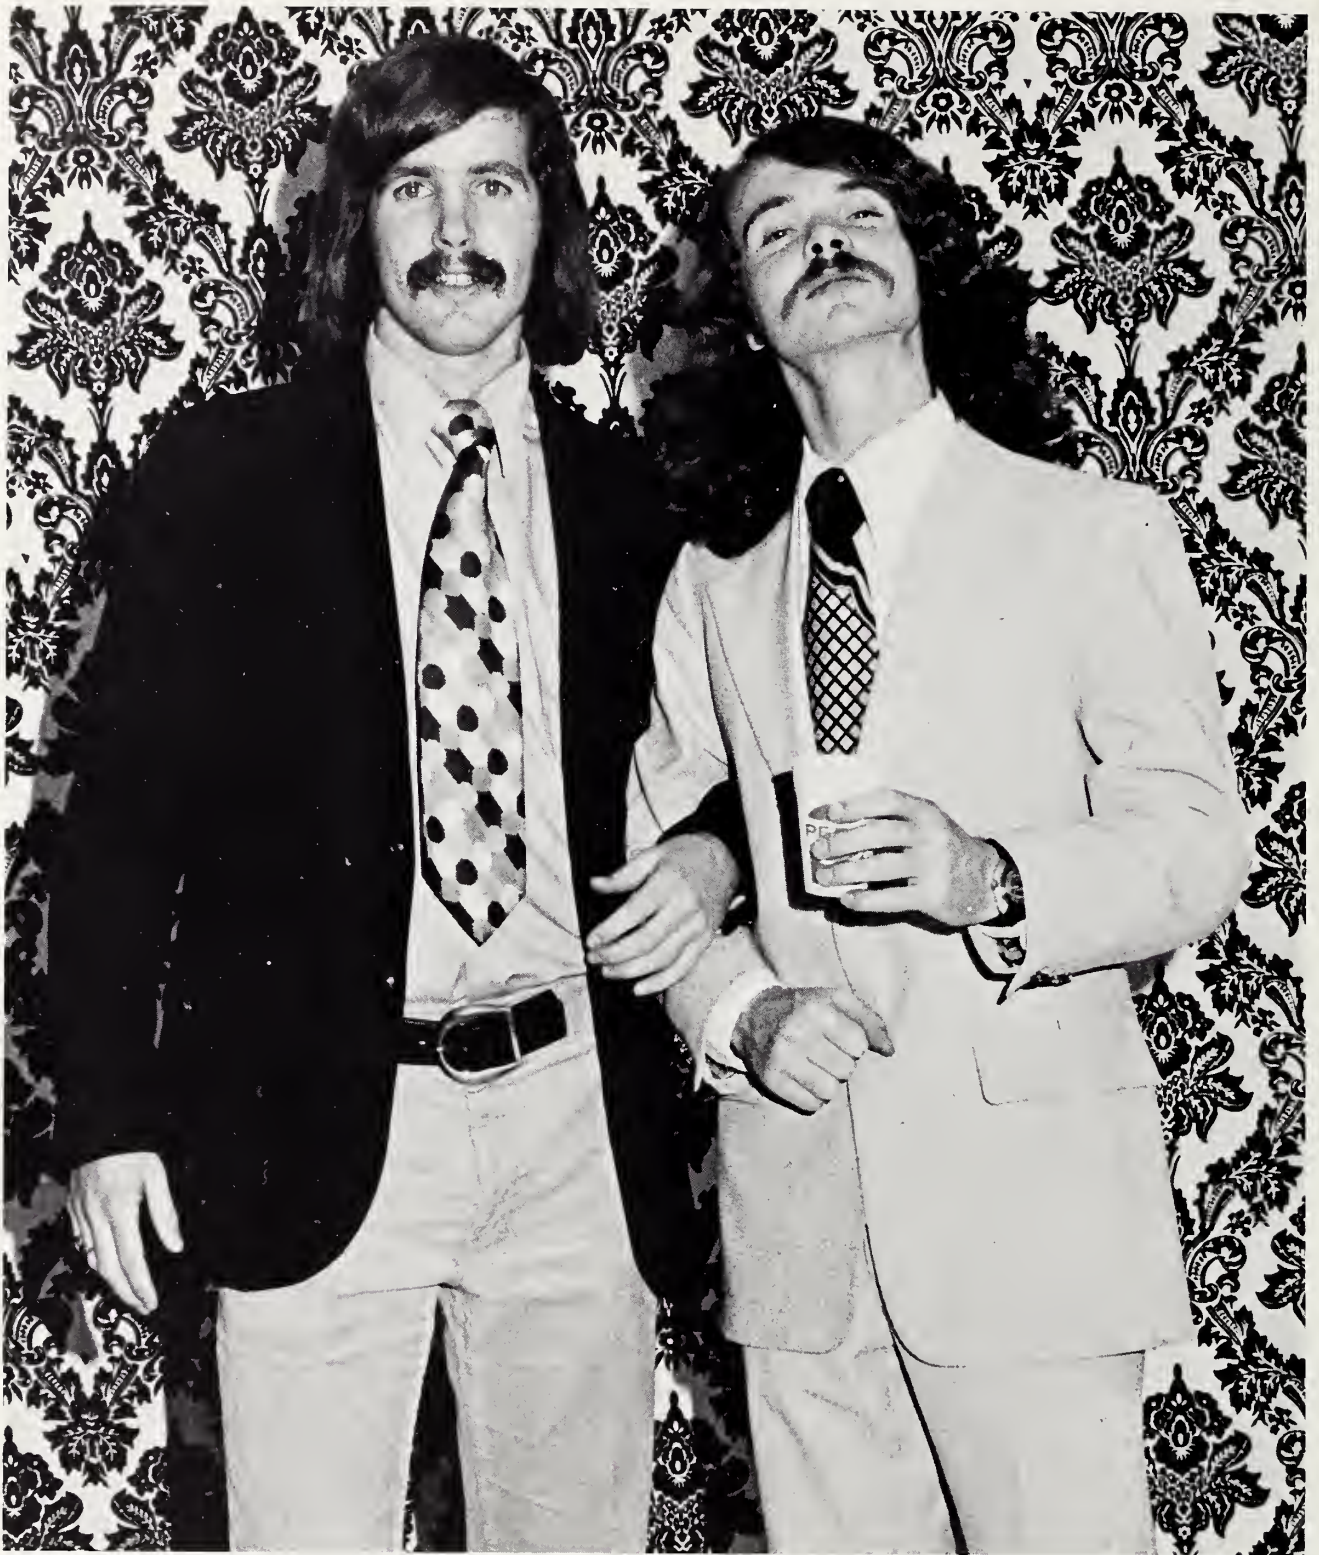

Anybody ready for another piece?

Millie Shows the proper way to eat watermelon.

I can't believe I ate the whole thing

- 1) Mellon Rolling
- 2) Seed Spitting
- 3) Eating the Most
- 4) Just for fun

Homecoming Queen Candidate Steve Woodell and escort.
With Predictions of a runaway victory, Steve Decided to withdraw in order to open competition to others.

ACADEMICS

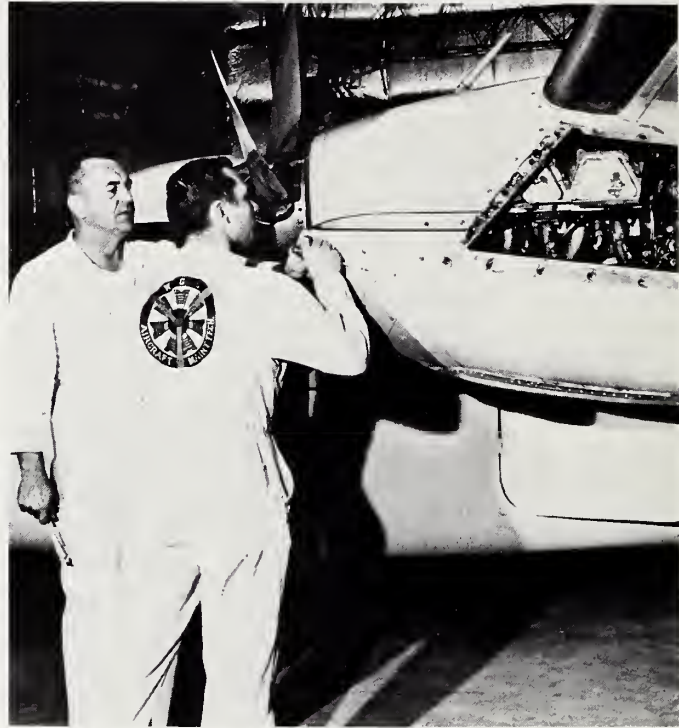

Aerospace Maintenance

"THE FLYING BISONS"

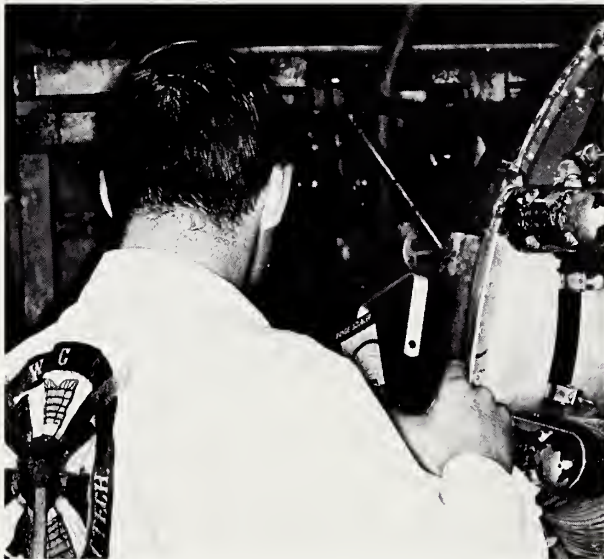

The club makes it possible for members to fly for less cost than regular rental or owning their own airplane would allow. At the present, the club has one plane, a 1967 Cessna 150. It could be said that each member "owns a piece of the rock".

Membership is open to Wayne Community College students and their families. As of January, 1974, the club has sixteen active members.

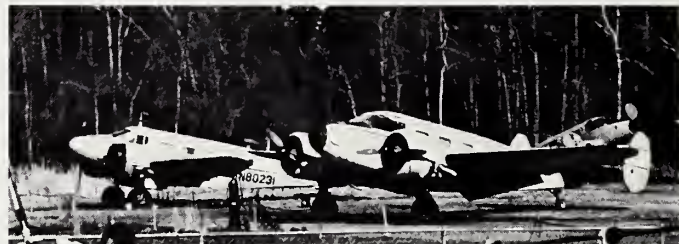

Extreme accuracy must be maintained in the repairs of the propeller.

Ready for use. Parking in rear!

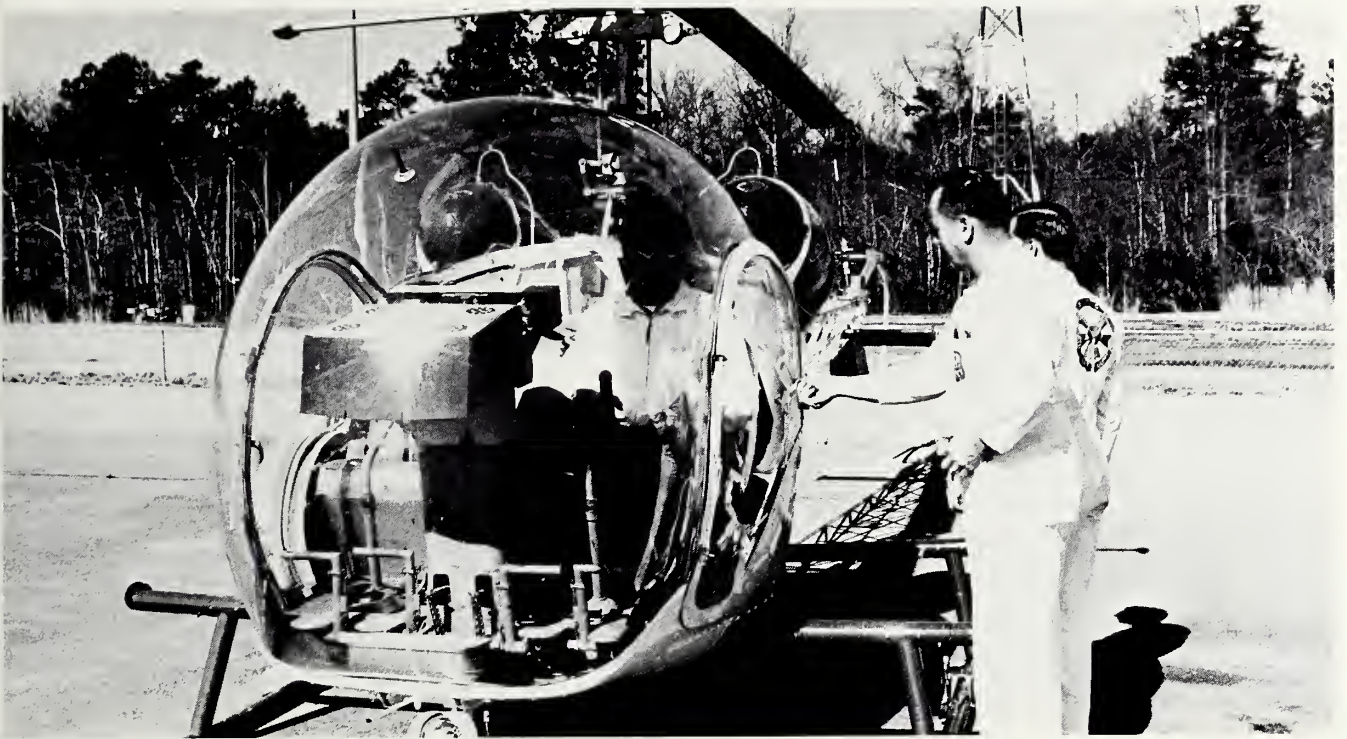

Readings are made to assure accurate maintenance.

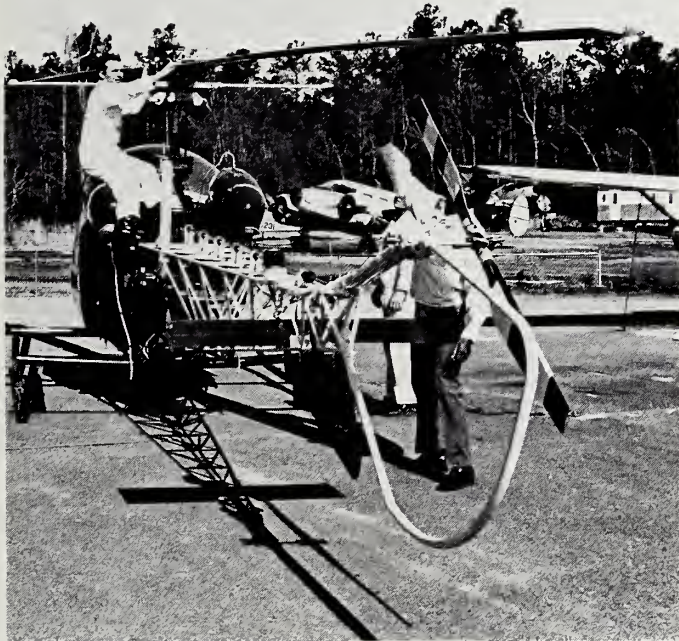

Landing gear is inspected for possible defects.

All safety features are checked and doubled checked.

Final control adjustments on Bell Helicopter made.

All adjustments made — Ready for flight.

AGRICULTURE AND

Future Hope

It seems like there is a shortage of everything these days. Demand has surpassed supply. Expanded scientific farming and conservation of our natural resources is helping to alleviate the problem. As America becomes more scientifically advanced, a good agricultural background is essential. The Agriculture and Natural Resources program at WCC offers an excellent opportunity for you to help your fellow man.

Forestry students get first hand experience.

Students measure growth of campus trees for class credit.

Students look on as land is cleared.

It's all interesting — but . . . a parking lot.

NATURAL RESOURCES

Talking about Thanksgiving dinner — Oh Boy!

Did you ever see such a sight in your life.

Time to close up for the night.

WILDLIFE MANAGEMENT

THE PROTECTORS

A career in Wildlife Management will help an individual to acquire the skills that are necessary to work with and manipulate animals. Fish and wildlife biologist's aides, game protectors, and game managers are only a few of the areas of specialization. Wildlife is one of nature's most important assets. Conservation and future planning are the key to assuring the stability of wildlife in the future.

Students examine wildlife for knowledge.

Measuring what? The moisture of what?

RECREATIONAL AND GROUNDS MANAGEMENT

Never thought I'd go away to college and still have to mow the lawn!

There isn't a whole lot you can do with the snow.

ENGINEERING TECHNOLOGY

THE WORLD DEPENDS ON IT!!

Each second of the day the world is caught in Electronic Technology. Life would become a hectic maze of confusion without it. What if there were no telephones, televisions, or radios? Think about it! Industrial Engineering Technology, and drafting also, play an important role in this field. This complex engineering field is the key to universal communications and the building of a better world

Drafting requires skill and alot of patience.

If WCC has a blackout we know why.

One slip, and you might get a shock.

MECHANICAL VOCATIONS

MECHANICAL VOCATIONS

A SERVICE TO EVERY CAR OWNER

Industry is seeking qualified people in this booming field. WCC's Vocational program is providing the varied skills that are needed in this technical field. This curriculum provides a basis for the student to compare and adapt to new techniques for servicing and repairs of vehicles. The shifting of America to the smaller cars further enhance the demand in this field and it's important place in today's society.

Students learn to prepare a car before the final paint job.

Before a car can be painted, the chrome must be taped.

Students learn to mix and prepare paints for body work.

One of the first steps is rough sanding.

Removing rust is not an easy job.

Fine sanding can be a delicate job.

At last the car is ready for the final paint job.

WATCH MAKING

A SKILL FOR THE FUTURE

Precision is another important factor.

Exact timing must be used in preparing a watch.

The mouth gets into the action sometimes.

THE WATCH- MAKERS GUILD

The Wayne Community College Watchmakers Guild was organized in 1969. Guild members consist of students enrolled in the WCC Watchmaking course. All members are honorary members of the N.C. Watchmakers Association during their student status.

The Guild's objectives are: to further education in watchmaking and related subjects; to develop leadership; to improve citizenship and patriotism; to develop a high degree of professionalism in members; to promote good will between members, the student body, the faculty of WCC, watchmakers in the community, and the community and to sponsor seminars for special training in this field.

Guild meetings are held once a month to discuss plans and projects related to Guild activities. The Guild sponsored two highly successful shows in this area last year; in addition, the Guild also has the honor of having won the N.C. Watchmakers Association President's trophy. The trophy is awarded annually to one of the eight Watchmaking Guilds in N.C. for most outstanding activities / accomplishments toward the watchmaking profession.

This is enough to make you go cross-eyed.

Patience is a requirement for this job.

Delicate instruments are used to make watches.

LIBERAL ARTS

Students work hard to prepare for the future.

A little snack in class never hurt anyone.

Mrs. Powell and a student discuss her class.

Someone seems to be paying attention!

SOCIAL SCIENCE

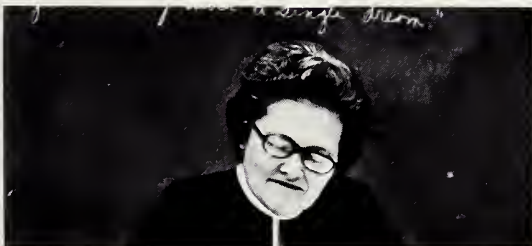

Concentration is part of the game.

The lecture can't be all that boring!

History holds varying degrees of interest for different students.

Peanut would rather write with his pen than chew it.

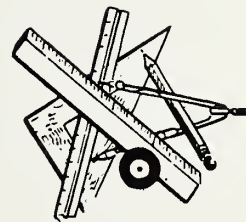

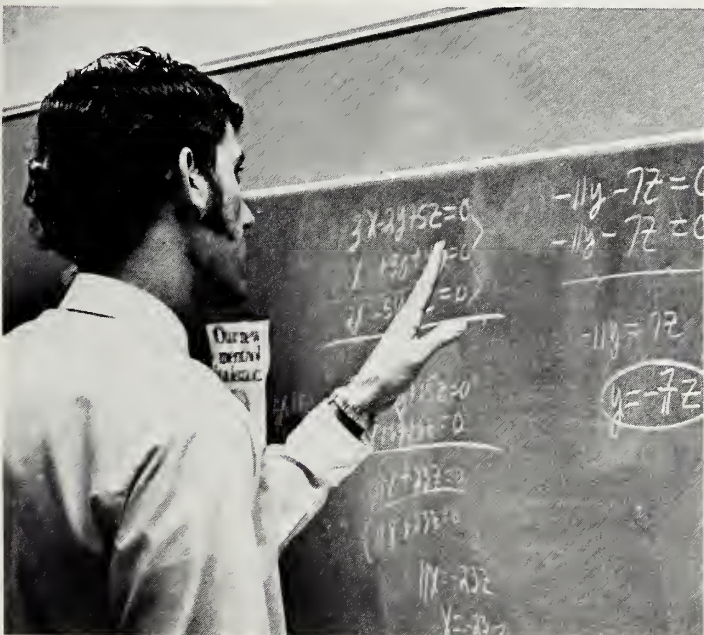

MATH — DEALING WITH FIGURES?! “36-24-36”

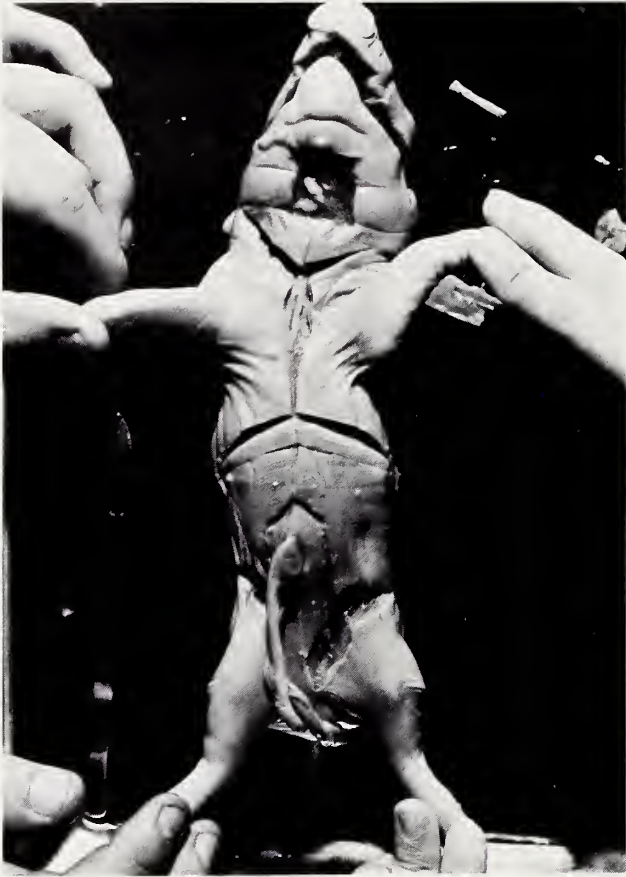

Mrs. Griffin explains a math problem to a student.

The master mind at work again explaining a second grade problem.

SCIENCE — A LIFE OF LUXURY?

Physical Therapy.
Watch that flame.

It's my life, let me live it as I want too.

MENTAL HEALTH ASSOC DEGREE

The Wayne Organization of Human Services makes it possible for students to be involved in Community Mental Health programs and activities. The club also helps members to attend training labs at reduced prices. The activities of the club help members to prepare for work in the community by practical experience. During 1974, the club sponsored a dance Marthon for Easter Seals.

Peer Counselors talk with other students about their problems.

Exhibit explaining P.C. helps students to understand their purpose.

Fran Smith is interviewed by T.V. Channel 9 for peer Counseling.

Mrs. Lynch — Head of Mental Health Assoc. Degree interviewed by Channel 9.

LICENSED PRACTICAL NURSE

Senior students are aided by alumni of the LPN program.

Mrs. Boykin explains Nursing Procedures to beginning students.

Nancy Eastman surveys patient identification plates.

LPN

Mrs. Wilkins takes blood pressure of one of her patients.

Taking the temperature of patients is one of the LPN's many duties.

LPN Students set up oxygen tent.

ADN

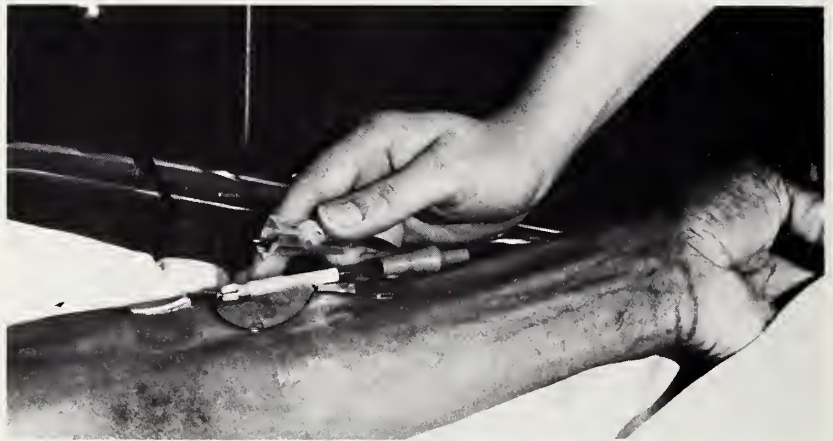

Students keep records of their patients care.

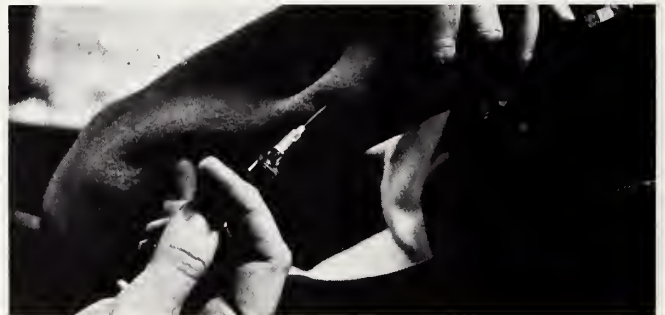

Medicine is measured into the needle.

Fun for the giver . . .

The I.V. fluids are started in the arm.

But not the reciever . . .

Blood Pressure readings are simple — You've just got to have good ears, eyes and fast finger.

Student checks patient med. charts.

I.V. fluids checked for flow time.

Sandra Weaver studies class noted.

“Its better to give, than to receive” be thankful you can help others that need it.

DENTAL ASSISTANTS

Wayne Community College's Dental Program produces what dental hygienists and assistants need in the service of the public. Along with all the many other shortages in the world, there is also a shortage of dentists. The graduates of this program are delegated duties that will assist the dentist in doing his job more efficiently. They assist in office management, x-ray procedures, patient dental health education, and chairside assisting for services provided to patients. The rewards are many, and the future is promising.

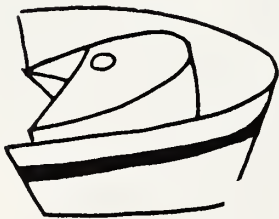

Ever wondered what happened to those teeth you gave to the tooth fairy?

X-Rays are an all -important part of checking your teeth.

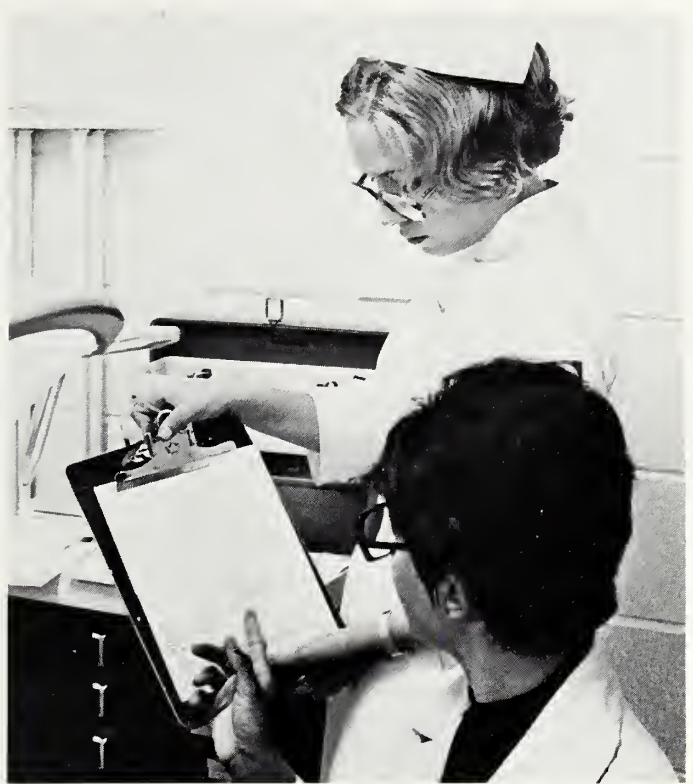

A student puts cotton in a patients mouth readying her for an X-Ray.

What do teeth have to do with biology?

Sometimes students do get a break!

Supervisors check the "victim" by reading the students charts.

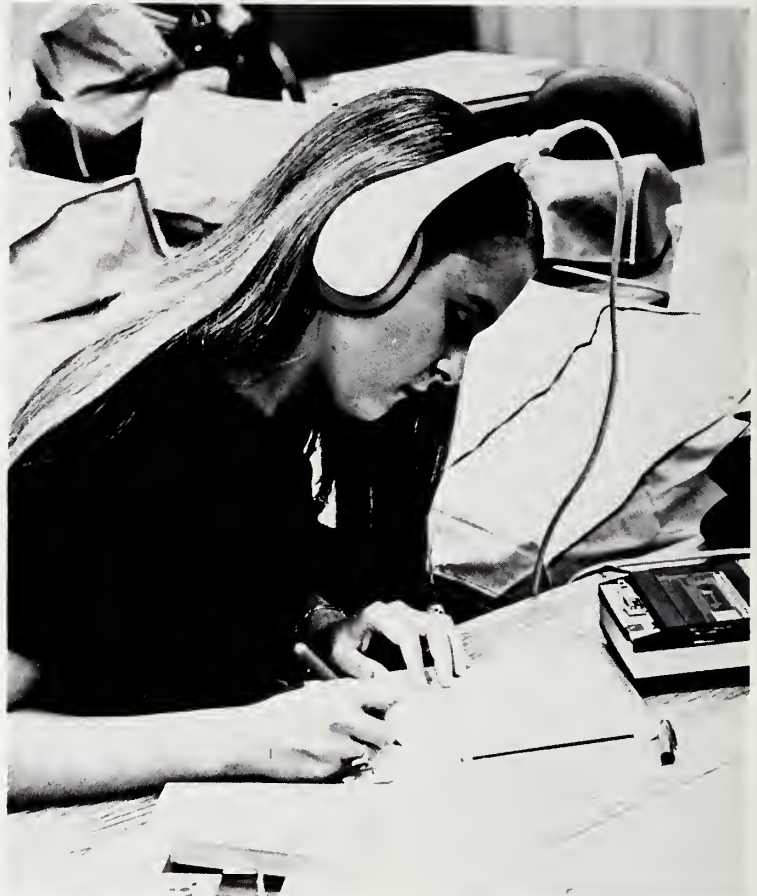

White is not always the required uniform.

BUSINESS — THE KEY TO THE FUTURE

Ever had a day when all your fingers were thumbs.

Cindy takes dictation from a tape.

a case of
necessity

Now how did I get a minus 200 dollars?

Now lets see, I backspace once for every two . . .

Its not as easy as adding 2 - 2!

Are you sure he spent \$15,000?

You just don't type sentences!

ORGANIZATIONS

FORESTRY — THE LIFE OF EXCITEMENT — ROLLEO-O

Pull!

Watch out for that blade?

Fore!

Does anyone have any first-aid creme?

Making faces isn't going to help any.

Racing against the clock.

up, Up and away.

"Clyde" seems to be enjoying himself.

Wonder who's going to fall first.

Now where is my prize?

Backing a tractor is not the job its put out to be.

ADMINISTRATION ADMINISTRATION ADMINISTRATION

ADMINISTRATION ADMINISTRATION ADMINISTRATION ADMINISTRATION ADMINISTRATION

ADMINISTRATION ADMINISTRATION ADMINISTRATION ADMINISTRATION ADMINISTRATION

Dedication is the key word to the administration at Wayne Community College. From the President right down to the secretaries, the staff pulls together to keep our college as one of the best in the state. Hard work and dedication has made us the college we are today.

President Clyde A. Erwin, Jr.

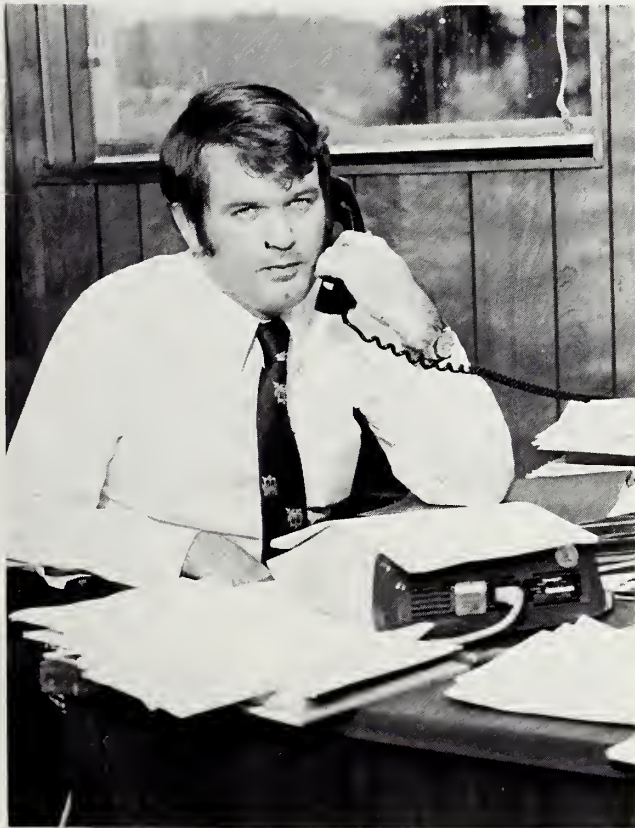

Dean of Instruction, Dr. Jan Crawford

Dr. Charles Poindexter, former Dean of Instruction, left this year to take on the duties of President of Mitchell Community College

Dr. Almsted Smith, Administrative Assistant, and Dr. Mabel Minor confront a problem

Dr. Ed Wilson

Dean of Students Bob Waller
